

## Best Padlocks & Keys for Students

**How to Choose a Padlock?**

## *How to choose a padlock?*

Do you need an override key? School padlocks provide students with security and privacy but what happens if a student forgets their combination or your school mandates compliance checks? That's where the override padlocks are suitable, allowing the student to know the combination but the school to have a master override key, if it is ever required.

The next important consideration when choosing school padlocks is longevity. Generally, the more you pay, the longer the lock will last.

Finally, does your school need colours to quickly identify year group, faculty or even house colours?

If you are unsure of which padlock best suits your requirements, just pick up the phone or send us an email, we are always happy to help.

Note the pricing in this PDF are for October 2022 only with minimum orders of 50. Also with all the schools in Victoria looking at next years requirements, there is some limited stock in some items, so early birds get the worm :-)

# VALUE PADLOCKS - NO KEY OVERRIDE
